Minutes after the last movie ended yesterday at the Plaza Theater, employees were busy sweeping up popcorns and gathering coke cups. It was a scene that had been repeated many times in the theater's 75-year history. This time, however, the cleanup was a little different. As one group of workers carried out the rubbish, another group began removing seats and other theater equipment in preparation for the building's end.

The film classic *The Last Picture Show* was the last movie shown in the old theater. Though the movie is 30 years old, most of the 250 seats were filled with teary-eyed audience wanting to say good-bye to the old building. Theater owner Ed Bradford said he chose the movie because it seemed appropriate. The movie is set in a small town where the only movie theater is preparing to close down.

Bradford said that large modern theaters in the city made it impossible for the Plaza to compete. He added that the theater's location(位置) was also a reason. " This used to be the center of town, " he said. " Now the area is mostly office buildings and warehouses. "

Last week some city officials suggested the city might be interested in turning the old theater into a museum and public meeting place. However, these plans were abandoned because of financial problems. Bradford sold the building and land to a local development firm, which plans to build a shopping complex on the land where the theater is located.

The theater audience said good-bye as Bradford locked the doors for the last time. After 75 years the Plaza Theater had shown its last movie. The theater will be missed.

答案：D

26. What will probably happen to the building?

A. It will be repaired.

B. It will be turned into a museum.

C. It will be knocked down.

D. It will be sold to the city government.

After years of heated debate, gray wolves were reintroduced to Yellowstone National Park. Fourteen wolves were caught in Canada and transported to the park. By last year, the Yellowstone wolf population had grown to more than 170 wolves.

Gray wolves once were seen here and there in the Yellowstone area and much of the continental United States, but they were gradually displaced by human development. By the 1920s, wolves had practically disappeared from the Yellowstone area. They went farther north into the deep forests of Canada, where there were fewer humans around.

The disappearance of the wolves had many unexpected results. Deer and elk populations — major food sources (来源) for the wolf — grew rapidly. These animals consumed large amounts of vegetation (植被), which reduced plant diversity in the park. In the absence of wolves, coyote

populations also grew quickly. The coyotes killed a large percentage of the park's red foxes, and completely drove away the park's beavers.

As early as 1966, biologists asked the government to consider reintroducing wolves to Yellowstone Park. They hoped that wolves would be able to control the elk and coyote problems. Many farmers opposed the plan because they feared that wolves would kill their farm animals or pets.

The government spent nearly 30 years coming up with a plan to reintroduce the wolvers. The U.S. Fish and Wildlife Service carefully monitors and manages the wolf packs in Yellowstone. Today, the debate continues over how well the gray wolf is fitting in at Yellowstone. Elk, deer, and coyote populations are down, while beavers and red foxes have made a comeback. The Yellowstone wolf project has been a valuable experiment to help biologists decide whether to reintroduce wolves to other parts of the country as well.

28. What is the text mainly about?

- A. Wildlife research in the United States.
- B. Plant diversity in the Yellowstone area.
- C. The conflict between farmers and gray wolves.
- D. The reintroduction of wolves to Yellowstone Park.

- A. Damage to local ecology.
- B. A decline in the park's income.

答案：A

31. What is the author's attitude towards the Yellowstone wolf project?

- B. Positive.
- C. Disapproving.

#### D. Uncaring.

The Intelligent Transport team at Newcastle University have turned an electric car into a mobile laboratory named " DriveLAB " in order to understand the challenges faced by older drivers and to discover where the key stress points are.

Research shows that giving up driving is one of the key reasons for a fall in health and well-being among older people, leading to them becoming more isolated(隔绝) and inactive.

Led by Professor Phil Blythe, the Newcastle team are developing in-vehicle technologies for older drivers which they hope could help them to continue driving into later life.

These include custom-made navigation(导航) tools, night vision systems and intelligent speed adaptations. Phil Blythe explains: " For many older people, particularly those living alone or in the country, driving is important for preserving their independence, giving them the freedom to get out and about without having to rely on others. "

" But we all have to accept that as we get older our reactions slow down and this often results in people avoiding any potentially challenging driving conditions and losing confidence in their driving skills. The result is that people stop driving before they really need to. "

Dr Amy Guo, the leading researcher on the older driver study, explains: " The DriveLAB is helping us to understand what the key points and difficulties are for older drivers and how we might use technology to address these problems.

" For example, most of us would expect older drivers always go slower than everyone else but surprisingly, we found that in 30mph zones they struggled to keep at a constant speed and so were more likely to break the speed limit and be at risk of getting fined. We're looking at the benefits of systems which control their speed as a way of preventing that.

" We hope that our work will help with technological solutions(解决方案) to ensure that older drivers stay safer behind the wheel. "

32. What is the purpose of the DriveLAB?

- A. To explore new means of transport.
- B. To design new types of cars.
- C. To find out older driver's problems.
- D. To teach people traffic rules.

解析：细节理解题。根据文章首段的内容可知，研制 DriveLAB 的目的是为了更好地了解老年司机所面临的挑战，从而发现关键的压力所在。

答案：C

33. Why is driving important for older people according to Phil Blythe?

- A. It keeps them independent.
- B. It helps them save time.
- C. It builds up their strength.
- D. It cures their mental illnesses.

解析：推理判断题。根据第四段中 Phil Blythe 所说的 "...driving is important for preserving

their independence, giving them the freedom to get out and about without having to rely on others”可知，在 Phil Blythe 看来，能够开车是老年人能够保持独立生活和自由外出的重要条件。  
答案：A

34. What do researchers hope to do for older drivers?

- A. Improve their driving skills.
- B. Develop driver-assist technologies.
- C. Provide tips on repairing their cars.

Lots of people find it hard to get up in the morning, and put the blame on the alarm clock. In fact, the key to easy morning wake-up lies in resting your body clock. 36 Here's how to make one.

- 37 In order to make a change, you need to decide why it's important. Do you want to get up in time to have breakfast with your family, get in some exercise, or just be better prepared for your day? Once you are clear about your reasons, tell your family or roommates about the change you want to make.

- Rethink mornings. Now that you know why you want to wake up, consider re-arranging your morning activities. If you want time to have breakfast with your family, save some time the night before by setting out clothes, shoes, and bags. 38 That's a quarter-hour more you could be sleeping if you bought a coffee maker with a timer.

- Keep your sleep/wake schedule on weekends. If you're tired out by Friday night, sleeping in on Saturday could sound wonderful. But compensating on the weekends actually feeds into your sleepiness the following week, a recent study found. 39

- Keep a record and evaluate it weekly. Keep track of your efforts and write down how you feel. After you've tried a new method for a week, take a look at your record. 40 If not, take another look at other methods you could try.

Dear Eric,

I am Li Hua. I am writing to invite you to join the table tennis team in our school. It is known that we can benefit a lot from playing table tennis. It can prevent us from getting shortsighted and it can keep us physically healthy. As to the activities, we plan to invite experienced players to giving training to us every Friday afternoon. At the same time, we will divide the members into several groups to practice at 5:00pm after school.

If you are interested, sign up on our school website before August 10.

I'm looking forward to your reply.

Yours,  
Li Hua
