The government also encourages visitors to get water from water stations in the main streets, and fill the water in bottles that can be used again. Let's stop buying bottled water and use running water!

Article 2

I am a student. Though I'm busy with my lessons, my free time is full of happiness and joy. I love reading because it helps me study better. I often do some reading in the evening. I think books are our best friends. They give us much knowledge. I find reading books is a good way to relax myself. At the same time it can also help me open up my eyes to the outside world. So I suggest that teachers should give us less homework to do so that we can have more time to read.
